

Connection Instructions

[Download MySql Workbench here.](#)

Add a new connection from this plus sign:

Enter the following info (also depicted below):

Hostname: 45.55.221.155

Username: datasci

Default Schema: datasci

A screenshot of the MySQL Workbench Connection Parameters dialog box. The "Connection" tab is selected. The "Connection Method" is set to "Standard (TCP/IP)". The "Parameters" sub-tab is active. The fields are filled with: Hostname: 45.55.221.155, Port: 3306, Username: datasci, Password: (with "Store in Keychain ..." and "Clear" buttons), and Default Schema: datasci. Descriptive text for each field is provided on the right.

When prompted, enter the password: sql
